## Broker Remarks

Don't miss the opportunity to see this exceptional **Pilothouse Motoryacht**. Her design reflects the uncompromising **Hampton Yachts** commitment to extraordinary design, construction and value. Call today for additional information and or photos. Recent survey is available.

## Hampton Yachts Design Features

The starting point for each Hampton 630 is the 100% hand laid one-piece fiberglass hull that features solid fiberglass below the waterline with Kevlar reinforcing the hull and three outer layers of vinylester resin. The sharply V forward hull sections give the 630 a soft and dry ride, while the flattened lines aft add to the stability as well as the efficiency for superior fuel economy. Propeller tunnels are used to level the engines, add directional stability, and allow shallow water adventuring. Picture yourself at the helm in the Hampton 630 Pilothouse, A comfortable pilothouse settee with a beautiful burl inlayed table allows your family and friends to keep you company. You will discover one of the reasons that the Hampton 630 is the perfect yacht. When the weather is chilly or wet, the pilothouse is shirtsleeve comfortable while, in warm weather, the pilothouse remains an air-conditioned haven. From the helm, aircraft-style stainless steel pilothouse

**The Premium Suite**

doors lead to the wide side decks.

Every Hampton 630 is built with real people in mind, so the doorways are comfortably wide, the stairwells gentle and spacious, and even the seating is carefully designed for comfort.

For absolute reliability, everything on the Hampton 630 from the powerful diesels right down to the electrical wall switches can be easily maintained, with readily available parts and service.

Just as important, each Hampton 630 was delivered with a surprisingly long list of standard equipment. Major items like the Wesmar stabilizers, generator, bow thruster, air conditioning, electronics, entertainment system, full galley appliances and the high-gloss cherry wood interior were all included with each Hampton 630.

To really see the quality built into each Hampton 630, however, you have to look at the details. Every possible nook and cranny has been converted into useful storage because we all know there is never enough storage on a yacht. Explore the engine room, and you will find that the wiring is neatly loomed and color-coded, that all the maintenance areas are easily accessible, and every pipe has a label at each valve. Look around the decks and you will see properly placed and sized scuppers. Wrap your hands around the oversized deck rails and feel the strength of the beautifully welded and polished 316 stainless steel. Call today to find out why **The Premium Suite** is the perfect boat for you.
