#### NOTABLE FEATURES

**The Crabber 22 is strongly built, on four main mouldings: hull, deck, interior moulding and inner deckhead lining, which has a tongue and groove finish.**

**The hull is solid GRP, with encapsulated steel ballast around the keel, plus a drop keel. The builders do not quote the ballast weight. The deck is balsa sandwich with substantial plywood pads incorporated for deck fittings.**

**Adjustable centerboard draft from 2'4" to 5" is perfect for low country sailing around low tides, marshes, and shoals.**

All new bottom paint, tiller glass and paint, bilge pump, and professionally installed SeaDek in the cockpit all completed 12/2019.
